

## Flexa move

Dante Bonuccelli

### Technical features

Armchair for conference halls, lecture halls, meeting rooms and multipurpose spaces.

### Typologies

Single armchair on wheels.

### Seat and backrest

Seat and backrest with internal structure in plywood. Fire-retardant crushproof expanded polyurethane padding. The seat support is made with a metal frame anchored to the sides. Covering in fabric, faux-leather or leather.

Also available with backrest panel in printed and curved plywood or, upon request, in anodized aluminum.

CertiPUR® certified padding. Wooden components with low formaldehyde emissions.

### Sides

Load-bearing side with inner plywood structure equipped with metal inserts for anchoring the backrest and seat support, available fully upholstered and covered in fabric, faux-leather or leather. Sides can be equipped with tip-up writing tablet and foldaway anti-panic movement made with a large black stratified HPL top and die-cast aluminum joint. Black thermoplastic swivel wheels.

Wooden components with low formaldehyde emissions, compliant with the new European limits.

### Accessories

Tip-up foldaway writing tablet in stratified HPL.

Under-seat basket.

Painted wood backrest panel in oak or beech finishes.

Backrest in anodized aluminum.

Tested according to European standards.
